

**Re: Race-1 welcomes  
new engine builders!**

**March 20, 2025**

It has become impossible for one shop in one location to service our long-time engine owners, tracks, and series.

Because of this, we are excited to announce that Race-1 has added three new shops to help! All three shops have been authorized to perform the Race-1 verification *and* engine repairs based upon the following:

1. Each have completed Race-1's specific program training.
2. All three have been involved in the crate engine industry for decades.
3. They have been long-time trusted associates of Race-1.
4. All are men of the highest level of integrity—the same integrity you have come to expect from Race-1.

The three new shops and contact info are below:

**Race City Performance ( Mooresville, NC)**
