

CII-1004

Crate Innovations 602 Spacer

This angled spacer is designed to be used in one position to flatten the carb on a 602 crate engine.

- The high side towards front of engine
- The center divider towards intake

DO NOT attempt to run it with center divider towards the carb.

Use it as marked and instructed.

Tighten the carb evenly and do not over tighten.

Note: This spacer is NOT legal in all sanctions.

Check local rules before using.
